

High-Efficiency Mono PERC Solar Module

This high-efficiency mono PERC solar module has a power range of LF320M6-60H to LF340M6-60H. It comes with a 12-year warranty for workmanship and materials, plus a 25-year warranty for 80% power output.

Product Overview

High-Efficiency Mono PERC Technology

These high-efficiency Mono PERC solar modules are engineered for superior performance and reliability in demanding environments. Designed to withstand significant mechanical loads up to 8000Pa, they offer robust durability against salt mist and ammonia corrosion. With a comprehensive warranty package including 12 years for workmanship and 25 years for power output, these modules provide a secure, long-term energy solution.
