

# High-Efficiency Solar Panel

This high-efficiency solar panel is designed for optimal energy conversion. Its robust construction ensures long-term reliability and performance in various environmental conditions.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Solar Module

This high-efficiency solar panel utilizes advanced G1 monocrystalline cell technology with 72 cells to ensure optimal energy conversion. Engineered for durability and performance, it features anti-PID protection and a robust construction suitable for residential, commercial, and industrial applications. Backed by a comprehensive 12-year quality warranty and a 25-year performance guarantee, it provides a reliable solution for long-term renewable energy needs.

## Technical Specifications

|                 |                    |
|-----------------|--------------------|
| Cell Type       | Monocrystalline G1 |
| Cell Dimensions | 158.75 x 158.75 mm |
| Number of Cells | 72                 |

## Performance Guarantees

### Power Output Warranty

|                               |                               |
|-------------------------------|-------------------------------|
| <b>90 %</b><br>12-Year Output | <b>80 %</b><br>25-Year Output |
|-------------------------------|-------------------------------|

## Certifications & Compliance

|           |              |
|-----------|--------------|
| Standards | TUV, INMETRO |
|-----------|--------------|

## Features

### Advanced Features

- Anti-PID Technology
- Positive Power Tolerance
- High-Efficiency Conversion

## Warranty

Quality Warranty Period

12 Years
