

# High-Efficiency Solar Panel

This high-efficiency solar panel is engineered for optimal performance in photovoltaic systems. It converts sunlight into electricity and is ideal for various applications.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Solar Module

This high-efficiency solar panel utilizes advanced mono 166\*166 9-busbar half-cell technology, featuring a total of 120 cells for optimal energy conversion. Designed for reliability, the module offers excellent anti-PID performance and a positive power tolerance to ensure consistent energy generation. Its robust construction makes it an ideal solution for residential, commercial, and industrial photovoltaic applications.

## Technical Specifications

Cell Configuration	120 Half-Cells (Mono 166*166mm)
Busbar Technology	9 busbar
Certifications	TUV Certified, Anti-PID

## Performance Guarantee

### Warranty & Output

**12 years**

Quality Warranty

**90 %**

Power Output (12 yrs)

**80 %**

Power Output (25 yrs)
