

High-Gain Outdoor TV Antenna

This high-gain outdoor TV antenna is designed for receiving digital terrestrial television signals. It features a multi-element array with reflectors, directors, and a driven element for enhanced signal reception.

Product Overview

Professional High-Gain Outdoor Antenna

This high-gain outdoor TV antenna is engineered for reliable reception of digital terrestrial television in challenging signal environments. Featuring a robust multi-element array, it excels at capturing weak or distant signals for both VHF and UHF bands. Built from weather-resistant materials, it ensures longevity and consistent performance for commercial and residential installations.

Technical Specifications

Design Features

- Multi-element array
- Integrated reflectors
- Enhanced signal directors
- High-efficiency driven element

Supported Frequencies

VHF, UHF

Installation and Compatibility

Compatibility

- Digital terrestrial TV receivers
- Standard set-top boxes

Weather Resistance

Outdoor Rated • Weather-Resistant
