

High-Gain Outdoor TV Antenna

This high-gain outdoor TV antenna is designed for optimal reception of digital television signals. Its multi-element Yagi-Uda design maximizes signal strength and minimizes interference.

Product Overview

High-Performance Reception Solution

This high-gain outdoor TV antenna is engineered for optimal digital television signal reception in challenging environments. Utilizing a multi-element Yagi-Uda design, it maximizes signal gain while effectively minimizing interference for clearer broadcast quality. Its weather-resistant construction ensures durability and reliable performance across varying outdoor conditions.

Technical Specifications

Primary Applications

- Weak signal strength areas
- Long-distance signal reception
- Digital television broadcast channels

Supported Frequencies

VHF, UHF

Design Type

Multi-element Yagi-Uda

Mounting Capability

Mast or structural mount

Key Features

Performance Metrics

1 High-Gain

Directional Capability

2 Weather-Resistant

Environmental Rating
