

High-Gain VHF/UHF TV Antenna

This high-gain TV antenna is designed for optimal reception of over-the-air broadcast signals. Constructed with durable materials, it ensures long-lasting outdoor performance and is optimized for both VHF and UHF frequencies.

Product Overview

High-Performance Signal Reception

This high-gain VHF/UHF TV antenna is engineered for superior over-the-air broadcast signal capture. Featuring a sophisticated multi-element array including a reflector, driven element, and multiple directors, it ensures clear and consistent reception. Designed for durability, the unit is built with high-quality materials to withstand outdoor weather conditions, making it an ideal professional solution for reliable signal sourcing.

Technical Specifications

Array Components

- Reflector
- Driven element
- Multiple directors

Supported Bands

VHF, UHF

Installation and Hardware

Environment

Outdoor Rated • Durable Construction

Mounting Kit

Yes
