

High-Intensity Discharge Flood Light

This high-intensity discharge (HID) flood light is designed for outdoor use in applications requiring powerful illumination. The light features a robust, IP65-rated housing and a reflective internal surface to maximize light output.

Product Overview

Professional High-Intensity Flood Lighting

This high-intensity discharge (HID) flood light is engineered for demanding outdoor environments where powerful, reliable illumination is required. Constructed with a robust, durable housing, it is designed to withstand harsh conditions while providing maximum light output through its high-efficiency reflective internal surface. It is an ideal solution for large-scale area lighting, including parking lots, sports fields, and building facades.

Technical Specifications

Ingress Protection Rating
IP65

Lighting Technology High-Intensity Discharge (HID)

Typical Applications Parking Lots, Sports Fields, Building Facades, Outdoor Area Lighting

Construction

Housing Material Cast Aluminum

Optical System Reflective internal surface
