Product Overview

High-Intensity Performance

This high-intensity discharge (HID) sodium lamp is engineered for superior lighting efficiency in high-output environments. Utilizing a tubular arc tube enclosed within a clear glass bulb, the lamp provides reliable illumination through sodium vapor excitation. It is an ideal solution for street, industrial, and security lighting applications requiring consistent output.

Technical Specifications

Lamp Technology	High-Intensity Discharge (HID) Sodium
Light Emission	Yellow-Orange
Base Configuration	Standard Screw Base
Bulb Design	Clear Outer Bulb, Tubular Arc Tube

Applications

Recommended Environments

- Street Lighting
- Industrial Lighting
- Security Lighting
