

High-Intensity Halogen Lamp for Outdoor Use

This high-intensity halogen lamp is designed for robust outdoor lighting. It features a durable housing, adjustable mounting bracket, and protective lens cover.

Product Overview

High-Intensity Outdoor Illumination

This high-intensity halogen lamp is engineered specifically for robust outdoor lighting applications. It features a durable housing, an adjustable mounting bracket, and a protective lens cover to ensure reliability in challenging environments. Ideal for telecommunication engineering and various foreign engineering contracting projects, this unit delivers efficient light output and a long operational lifespan.

Technical Specifications

Design Features

- Durable housing
- Adjustable mounting bracket
- Protective lens cover

Primary Application

Outdoor Lighting, Telecommunication Engineering, Engineering Contracting

Performance Metrics

Performance Highlights

1 High

Light Intensity

1 Long
