

High-Intensity LED Floodlight

This high-intensity floodlight is designed for robust outdoor applications. It features a reflective interior for enhanced light projection and an IP65 protection rating, ensuring resistance to dust and water ingress.

Product Overview

High-Intensity LED Floodlight

This high-intensity LED floodlight is engineered for demanding outdoor environments, offering robust illumination for construction sites, security perimeters, and general outdoor areas. Featuring a specialized reflective interior, it maximizes light projection and efficiency. With an IP65 protection rating, this unit is built to withstand dust and water ingress, ensuring reliable performance in harsh weather conditions.

Technical Specifications

Protection Class

IP65

Cable Length

1 m

Applications

Recommended Uses

Construction Sites, Security Lighting, Outdoor Illumination
