Product Overview

Professional High-Intensity Illumination

This high-intensity LED searchlight is engineered for demanding security, outdoor, and industrial environments. Featuring a robust aluminum housing, it ensures superior heat dissipation and long-term durability in varied conditions. The advanced LED technology provides a focused, high-output beam with a lifespan exceeding 50,000 hours, significantly reducing maintenance costs compared to traditional lighting solutions.

Technical Specifications

Power Options

- 10W
- 20W
- 30W
- 100W

Model	ZM-T1
Input Voltage	220V
Available Color Temperatures	Pure White, Warm White
Dimensions (cm)	115 x 90 x 86

Performance Metrics

LED Lifespan

50000 hours
Lifespan

Design Highlights

Aluminum Housing • Heat Dissipation • Adjustable Bracket
