

High-Intensity LED Torch

This high-capacity LED flashlight is designed for powerful illumination. It features durable construction, an ergonomic grip, and a long-lasting battery for extended use.

Product Overview

Professional Illumination Solutions

This high-intensity LED torch is engineered for demanding professional environments requiring reliable and portable illumination. Featuring a robust, ergonomic construction, it ensures durability during extended use in various field applications. The integration of high-capacity battery technology combined with advanced beam focusing optics makes this an essential tool for high-visibility requirements.

Technical Specifications

Model Number	LED-6301
Torch Length	105 cm

Performance Metrics

Core Features

1 Integrated

Magnet Drive System

1 Concentrated Beam

Focus Precision

Features & Benefits

Primary Advantages	Super Capacity, Durable Construction, Ergonomic Grip, High-Intensity Beam
