

High-Intensity LED Tunnel Light

This high-intensity LED tunnel light is designed for robust performance in demanding environments. Its durable, weatherproof housing and adjustable mounting bracket ensure efficient and long-lasting illumination for tunnels, underpasses, and other industrial applications.

Overview

High-Performance Tunnel Illumination

This high-intensity LED tunnel light is engineered for robust performance in demanding industrial environments. Featuring a durable, weatherproof housing and an adjustable mounting bracket, it ensures versatile and reliable installation. It provides efficient, long-lasting illumination specifically designed for tunnels, underpasses, and similar infrastructure applications.

Key Features

Durability & Build

Weatherproof Housing • High-Grade Materials

Suitable Applications

Tunnels, Underpasses, Industrial Facilities

Technical Specifications

Installation

Adjustable mounting bracket for versatile installation
