

# High-Intensity LED Work Light with COB Arrays

This work light features a durable, rectangular housing with an integrated heat sink design. It is equipped with two COB (Chip-on-Board) LED arrays for superior brightness and uniform illumination.

## Product Overview

### Professional High-Intensity Lighting Solution

This high-intensity LED work light is engineered for demanding environments, featuring dual COB (Chip-on-Board) arrays for exceptional brightness and uniform light distribution. Housed in a durable casing with an integrated heat sink, it ensures long-term reliability and thermal efficiency. The versatile 12V-24V input range makes it an ideal choice for heavy-duty vehicle integration across construction, agricultural, and emergency response sectors.

## Technical Specifications

Light Source	Dual COB LED Arrays
Operating Voltage	12V-24V DC
Construction Features	Durable Housing, Integrated Heat Sink, Rectangular Profile

## Application & Usage

### Target Industries

- Off-road Vehicles
- Construction Machinery
- Agriculture
- Emergency Lighting

## Installation

Mounting Type	Robust Versatile Mounting Bracket
