

High-Intensity Outdoor LED Floodlight

This high-intensity outdoor floodlight is designed for illuminating large areas. It features a robust construction with a protective housing and a sturdy mounting bracket for secure installation.

Product Overview

High-Intensity Outdoor LED Floodlight

This high-intensity outdoor floodlight is engineered for illuminating large areas with precision and reliability. Designed with a robust protective housing and a sturdy mounting bracket, it ensures secure installation in demanding environments. The advanced reflector system maximizes light output, delivering a wide beam angle suitable for security lighting, architectural illumination, and large-scale outdoor events.

Key Features

Primary Applications

Security Lighting, Architectural Illumination, Outdoor Events, Large Area Lighting

Construction & Design

Build Quality

Robust Housing • Protective Casing • Sturdy Mounting

Reflector Technology

Engineered for maximum light output and wide beam angle distribution
