Product Overview

High-Intensity Rechargeable Work Light

This rugged, high-intensity rechargeable LED work light is designed for demanding professional environments, including construction sites and automotive workshops. Featuring a durable impact-resistant and weather-proof housing, it provides reliable illumination with adjustable brightness levels. With a long-lasting battery and integrated charging indicator, it is an essential tool for portable, high-performance lighting needs.

Technical Specifications

Key Performance Metrics

300 Lumen

Brightness

5 Watt

Power Consumption

2000 mAh

Battery Capacity

Runtime by Mode

Brightness Setting	Run Time
High	4-4.5 Hours
Low	9 Hours

Construction & Design

Build Features

- Impact Resistant
- Weather Proof Housing
- Switch Lock
- Rubber Padding

Dimensions	152 x 77 x 170 mm
Material	ABS, PC, Silicon Gel
