

High-Leverage Bolt Cutter

This bolt cutter is designed with high leverage for cutting bolts, rods, and other metal materials. It features hardened steel jaws for enhanced durability and precise cutting.

Overview

High-Leverage Bolt Cutter

This high-leverage bolt cutter is engineered for demanding cutting tasks involving bolts, rods, and various metal materials. It features robust, hardened steel jaws designed for both durability and precision in every cut. The tool is equipped with ergonomic handles to minimize user fatigue during extended use, making it an ideal choice for construction, industrial, and maintenance environments.

Technical Specifications

Cutting Capacity

450 mm

Max Material Hardness/Capacity

Model Number

DP0103

Features

Key Features

- Hardened steel jaws for enhanced durability
- High-leverage design for reduced cutting effort
- Ergonomic handle grips for comfort
- Heavy-duty construction for industrial use

Applications

Suitable Applications

Construction, Industrial Maintenance, Metal Fabrication
