

High-Performance Auto Engine

This high-performance auto engine is designed for various applications. The engine features a durable construction and efficient design, ensuring reliable operation and long-lasting performance.

Overview

High-Performance Engine Overview

This high-performance auto engine is engineered for versatility and reliability across a wide range of automotive and industrial applications. Featuring a durable, robust construction, it leverages advanced technology to balance optimal power output with fuel efficiency. Designed for demanding environments, this unit ensures consistent operation and long-lasting performance for your machinery.

Technical Specifications

Power Output

5.5 HP

Horsepower

Model Designation	GP160
Engine Type	Electronic, Vehement Motor

Safety & Compliance

Safety Warnings

WARNING
