

High-Performance Clutch Cover

This high-performance clutch cover is designed for optimal power transfer and durability. It features robust construction with precision-engineered components for smooth and reliable operation.

Overview

High-Performance Clutch Cover

This high-performance clutch cover is designed for optimal power transfer and durability in demanding automotive applications. Featuring robust construction and precision-engineered components, it ensures smooth and reliable operation under various driving conditions. It is engineered to meet or exceed OEM specifications, providing enhanced clamping force for improved clutch engagement, making it suitable for both street and track use.

Technical Details

Model Number	CMB-019
Key Performance Features	High-performance, Enhanced clamping force, OEM specification compliant, Precision-engineered

Application

Ideal Usage

- Street applications
- Track applications
