

High-Performance Cutting Wheel

This cutting wheel is designed for precise and efficient cutting performance. It is suitable for use with electric tools across a variety of materials.

Product Overview

Precision Cutting Performance

This high-performance cutting-off wheel is engineered for precision and efficiency in demanding industrial environments. Designed for compatibility with electric power tools, it delivers clean, accurate cuts across a variety of materials. Its durable construction ensures long-lasting performance and reliability for professional applications.

Technical Specifications

Maximum Speed	80 m/s
Grit Rating	ZA 120

Compliance & Standards

Country of Origin Made in China	
Compliance Standards	JB/T5301-2008, XK06-011-00016
