

High Performance Diesel Engine Oil

This diesel engine oil is suitable for engines meeting Euro VI and national VI emission standards. It is compatible with exhaust aftertreatment devices like DPF, POC, DOC, and EGR systems.

Product Overview

High Performance Diesel Engine Oil

This high-performance diesel engine oil is formulated with refined hydrogenated base oil and advanced composite blending additives. Designed specifically for modern diesel engine technology, it meets the rigorous API FA-4 specification requirements for vehicles produced from 2017 onwards. The low-viscosity design is engineered to deliver superior fuel economy while ensuring long-life engine protection and environmental sustainability.

Technical Specifications

API Specification

API FA-4

Available Packaging

- 4L
- 18L

Viscosity Grade

10W-30

Performance Metrics

Key Performance Benefits

Energy Saving, Long Life, Environmentally Friendly, Fuel Economy

Primary Application

Highway transportation diesel engines (2017 and later)
