

High-Performance Document Shredder

This high-performance shredder is designed for secure document disposal. It features a robust cutting mechanism for efficiently shredding paper and other materials.

Overview

High-Performance Document Shredder

This high-performance shredder is engineered for secure and efficient document disposal in both office and industrial environments. It features a robust cutting mechanism capable of handling paper and various other materials, ensuring reliable waste management. With integrated safety features, it provides user protection while maintaining high operational standards for confidential data destruction.

Technical Specifications

Safety Features

Accident Prevention • User Protection

Model Number	SPC 6005
Suitable Environments	Office, Industrial, Secure Data Destruction
