

High-Performance Overlock Sewing Machine

This is a high-performance sewing machine designed for overlock stitching. It features robust construction and precise engineering for reliable and efficient operation.

Overview

Professional Overlock Performance

The ACER7330 is a high-performance sewing machine engineered specifically for precise overlock stitching. Built with robust construction and reliable mechanics, it ensures consistent stitch quality across a wide variety of fabrics. Its compact design and user-friendly interface make it an ideal choice for both professional production environments and advanced home sewing applications.

Technical Details

Key Features

- Multiple thread guides
- Precision tension controls
- Robust, durable construction
- Compact, space-saving design

Model Number	ACER7330
Application Suitability	Professional Use, Home Sewing, Versatile Fabric Handling
