

High-Performance Sparking Plug

This sparking plug is designed for optimal engine ignition. Its durable construction ensures an extended lifespan and reliable performance.

Product Overview

High-Performance Engineering

This high-performance sparking plug is engineered for optimal engine ignition, ensuring reliable performance under demanding conditions. Its durable construction is designed to meet or exceed OEM standards, providing a long-lasting and dependable solution for various vehicle applications. This component is built for professionals who prioritize quality and engine longevity.

Technical Specifications

Series Identifier	62
Code	PILTR

Performance Features

Durability

Extended Lifespan • OEM Compliant

Key Benefits

- Optimal ignition efficiency
- Reliable engine start
- Durable high-performance construction
