

# High Power LED Lamp for Intense Illumination

This high-power LED lamp is designed for efficient and bright illumination. Its robust construction includes a heat-dissipating structure, ensuring optimal light distribution and energy efficiency.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Illumination

This high-power LED lamp is engineered for environments requiring intense, reliable illumination. Featuring a robust construction with an advanced heat-dissipating structure, it ensures an extended lifespan and consistent performance. The design incorporates a white diffuser for uniform light distribution, making it an ideal choice for demanding commercial and industrial applications.

## Technical Specifications

### Available Power Models

Model Type	Power Output
T100	35
T120	45
T120	55
T135	75
T150	95
T158	125

### Key Features

High Intensity, Heat Dissipation, Uniform Distribution, Energy Efficient

## Design & Installation

### Build Quality

Robust Construction • Heat-Dissipating Structure

### Installation

Equipped with a standard screw base for easy installation in a variety of fixtures.
