Product Overview

High-Efficiency LED Illumination

These high-power LED bulbs are designed to provide superior brightness while significantly reducing energy consumption compared to traditional incandescent lighting. Built with durable aluminum and plastic materials, they feature advanced heat dissipation and IC driver technology for stable, long-lasting performance. With a lifespan exceeding 50,000 hours, these bulbs offer a reliable and cost-effective lighting solution for various professional and residential applications.

Technical Specifications

Power Consumption	12 W
Input Voltage Range	85-265V AC
Power Factor	0.9
Color Rendering Index (Ra)	80
Beam Angle	270 °
Dimensions	! 65x 123 mm
Available Color Temperatures	3000K (Warm White), 4000K (Neutral White), 6000K (Pure White)

Performance & Durability

Performance Metrics

50000 H
Working Life

90 %
Lamp Efficiency

95.6 %
Light Transmittance

Operating Temperature	-40°C to 50°C
Warranty Period	3 Years

Compliance & Certification

Certifications

CE-EMC • CE-LVD • ROHS • EN62471 • C-TICK

Logistics

Delivery Terms

- FOB SHUNDE
- FOB GUANGZHOU
- FOB SHENGZHEN

Payment Terms

T/T, L/C (30% deposit, 70% against B/L copy)
