

High Power LED T-Shape Lamp

This high power LED T-shaped lamp is designed for efficient and bright illumination. It features a standard screw base for easy installation in various fixtures and is ideal for commercial and residential lighting applications.

Product Overview

High-Performance T-Shape LED Lighting

This high-power LED T-shape lamp combines advanced thermal management with efficient illumination. Featuring a robust PBT and aluminium housing paired with a high-quality PC diffuser, it is designed for durability and consistent light distribution. With constant current IC driver technology, this lamp offers a reliable lighting solution for diverse commercial and residential environments.

Technical Specifications

LED Chip Type	SMD2835
Available Bases	E27, B22
Driver Technology	Constant current IC

Construction & Materials

Housing Materials

- PBT
- Aluminium

Diffuser Material	PC (Polycarbonate)
LED Board Material	Aluminium

Applications

Suitable Environments

Workshop • Home • Shops • Restaurants • Hotels • Coffee Bar
