Overview

Professional Performance

This high-power commercial blender is engineered for versatility and durability in demanding kitchen environments. Featuring a robust 2000W motor and a 2-liter BPA-free Tritan jar, it is designed to handle heavy-duty tasks such as ice crushing and smoothie preparation with ease. With intuitive automated programs, variable speed control, and a stainless steel housing, this appliance offers both professional-grade performance and long-lasting reliability.

Performance & Power

High-performance motor engineered for consistent power and low noise operation.

Motor Power	2000 W
Maximum Speed	30000 r/min
Operating Noise Level	82 dB
Automatic Programs	Pulse, Ice Crush, Smoothie

Design & Construction

Stainless steel housing and intuitive control panel with pre-set programs.

Durable 2L Tritan jar designed for high-capacity commercial use.

Jar Capacity	2 L
Jar Material	Tritan (BPA free)
Housing Material	Stainless Steel
Blade Configuration	6 pcs

Safety & Features

Control interface featuring variable speed dial and dedicated function buttons.

Safety Features

Safety Lock System • Ek1 Norm Compliant • Anti-slip Rubber Feet

Interface

- Variable speed control
- Pulse function
- Blue LED power indicator
