Product Overview

Professional High-Power Illumination

This high-power outdoor LED flood light is engineered for demanding industrial and large-area environments. Featuring a robust IP66-rated design, it ensures reliable performance and longevity in challenging weather conditions. The unit delivers high efficiency of 110-130lm/W, providing powerful and uniform illumination for spaces such as sports fields, parking lots, and industrial facilities.

Technical Specifications

Available Power Ratings

- 200
- 240

Luminous Efficacy

110 lm/W

Minimum Efficacy

130 lm/W

Maximum Efficacy

Model Number

YXL323-T

Certifications & Warranty

Compliance

CE, IP66

Warranty Period

5 years
