Overview

High-Performance Outdoor Illumination

This high-power LED floodlight is engineered for demanding outdoor environments, offering versatile power options ranging from 200W to 600W. With an IP66 rating, it ensures robust protection against dust and water ingress, making it ideal for large-area, security, and architectural lighting. The system delivers efficient performance at 100lm/w, providing bright and reliable illumination for professional applications.

Technical Specifications

Available Power Ratings

- 200W
- 300W
- 400W
- 500W
- 600W

Luminous Efficacy

100 lm/w
Efficacy

Beam Angle Options

25°, 60°

Durability & Standards

Ingress Protection Rating

IP66

Housing Features

Robust, weather-resistant construction suitable for harsh outdoor environments.
