

High-Pressure Bicycle Tire Hand Pump

High-pressure hand pump for inflating tires. Features a durable construction with a stable base, ergonomic handle, and integrated pressure gauge for accurate inflation.

Overview

Professional High-Pressure Hand Pump

This high-pressure bicycle tire hand pump is designed for durability and efficiency. Constructed from high-quality aluminium, it provides the robust performance needed for consistent tire inflation. At 500mm in length, it offers leverage for effective operation, making it an essential tool for maintaining optimal tire pressure.

Technical Specifications

Pressure Capability

High Pressure

Material	Aluminium
Length	500 mm
Product Type	Bicycle Tire Hand Pump
