

High Pressure Cleaning Machine

This high-pressure cleaning machine is a robust and efficient cleaning solution designed for a variety of applications. It features a powerful motor and high-pressure pump to deliver effective cleaning performance.

Product Overview

High-Performance Cleaning Solution

This high-pressure cleaning machine is a robust and efficient solution designed for versatile cleaning tasks. Featuring a powerful series-excited motor and high-pressure pump, it delivers consistent performance for both domestic and light commercial applications. Its compact, portable design includes an integrated handle for easy transport, while built-in safety features like automatic shut-off prevent overheating and pressure overload.

Performance Metrics

Key Performance Metrics

105 bar

Max Pressure

1500 W

Max Power

6 L/min

Max Flow Rate

Technical Specifications

Dimensions & Weight

| Attribute | Value |
|---------------------|-----------------------------|
| Weight | 5 - 6 kg |
| Packing Size | 45.5 x 26.0 x 26.5 cm |
| Motor Type | Series-excited motor |
| Voltage & Frequency | 100-127V, 220-240V, 50/60Hz |

Features

Safety & Design

- Automatic shut-off
- Overheating protection
- Pressure overload protection
- Compact portable design
- Integrated handle
