Product Overview

High-Pressure Performance

This high-pressure diesel water pump is designed for demanding environments, offering a robust cast iron construction for enhanced durability. Powered by a high-performance diesel engine, the system ensures reliable and consistent water flow with low fuel consumption and minimal maintenance requirements. Its full-frame design significantly reduces vibration during operation, making it an ideal choice for agricultural, construction, and industrial water management tasks.

Technical Specifications

Available Port Sizes

- 1.5 inch
- 2 inch
- 3 inch
- 4 inch

Material

Cast Iron

Operational Features

Key Advantages

High-Pressure, Diesel Powered, Low Vibration, Easy Starting, Low Maintenance, Durable Construction

Power Source

Diesel Engine

Start Method

Easy Start System

Application Suitability

Suitable Applications

- Agricultural Irrigation
- Construction Sites
- Industrial Water Transfer
- Emergency Water Removal
