

# High Pressure Industrial Cleaner

This high-pressure cleaner is a robust and efficient cleaning solution designed for demanding industrial and commercial applications. It delivers high-pressure water flow for effective removal of dirt, grime, and stubborn residues.

## Overview

### High Performance Industrial Cleaning

This high-pressure industrial cleaner is designed for demanding environments, offering robust performance for removing stubborn grime and residues. Equipped with a powerful gasoline engine and a durable swashplate plunger pump, it provides adjustable pressure control to suit various cleaning tasks. Its versatile design makes it an ideal solution for maintaining equipment, vehicles, and industrial surfaces.

## Performance Metrics

### Maximum Pressure

**230 bar**

Max Pressure

**7.5 L/min**

Max Flow Rate

## Technical Specifications

### Available Pressure Configurations

- 110 bar (1600 psi)
- 150 bar (2200 psi)
- 170 bar
- 230 bar

### Flow Quantity Options

- 6 L/min (1.6 GPM)
- 7.5 L/min (2.0 GPM)

### Motor Type

Gasoline engine

### Power Output

5.5 HP

## Physical Attributes

### Weight

- 32 KGS
- 34 KGS

### Packing Size

50 x 43 x 52 cm

## Features

### Key Features

Liquid adsorption function, Water temperature control valves, Swashplate plunger pump, Adjustable pressure, Optional electric start

## Accessories

### Included Components

Component	Specification
Water Cannon	HPG01
High Pressure Pipe	5 m
Water Cannon	HPG03
High Pressure Pipe	5 m
