

High Pressure Industrial Cleaning Pump, 2.2kW, 220V

This high-pressure pump delivers effective cleaning with good speed and eliminates environmental pollution. Its wide application range and compatibility with mechanization and automation contribute to energy and water savings, as well as reduced cleaning costs.

Overview

Industrial Cleaning Performance

This high-pressure industrial cleaning pump is engineered for demanding applications requiring consistent power and reliability. Featuring a 2.2kW motor, it delivers versatile performance across a wide pressure range, making it suitable for professional cleaning, fluid transfer, and precision spraying tasks. With customizable axle options and multiple flow rate configurations, this unit adapts seamlessly to diverse industrial setups.

Technical Specifications

Motor Power	2.2 kW
Voltage	220 V
Motor Speed	1430 Rpm

Performance Metrics

Pressure Range

10 Bar

Min Pressure

230 Bar

Max Pressure

Available Flow Rates

- 11
- 12
- 13
- 14
- 16

Configuration

Axle Diameter Options

19.05mm • 20mm • 24mm • 28mm

Customization Available	Yes
