

High Pressure Pneumatic Nailer for 10-12 Gauge Nails

This high-pressure nailer delivers more power in a lightweight body. It features a rotating switch for rapid or sequential firing, a compact magazine, and a tool-free depth adjustment.

Product Overview

Professional High-Pressure Fastening

This high-pressure pneumatic nailer is engineered for heavy-duty industrial and construction applications. Designed to handle 10-12 gauge nails, it delivers the consistent power and precision required for demanding fastening tasks. Its durable build quality and ergonomic design ensure reliability and operator comfort during extended use.

Technical Specifications

Primary Applications

- Heavy-duty construction
- Industrial fastening
- Professional framing

Compatible Nail Gauge	10 Gauge, 12 Gauge
Operation Type	Pneumatic (High Pressure)

Key Features

Key Features

High Pressure System • Ergonomic Design • Durable Construction
