

High Pressure Power Washer

This high-pressure power washer is designed for demanding cleaning tasks. It delivers a high-pressure water stream for effective removal of dirt and grime from various surfaces.

Overview

High-Performance Cleaning Solution

This high-pressure power washer is engineered for demanding industrial and commercial cleaning tasks. Featuring a robust engine, it delivers exceptional pressure and flow rates to effectively remove stubborn dirt and grime from various surfaces. With options for electric start and advanced features like self-priming and temperature control, this unit provides the reliability and versatility required for professional applications.

Performance Metrics

Operating Pressure Options

110 bar Standard Pressure	150 bar Mid-Range Pressure	180 bar High-End Pressure
-------------------------------------	--------------------------------------	-------------------------------------

Flow Quantity

- 6 L/min (1.6 GPM)
- 7.5 L/min (2.5 GPM)
- 11.5 L/min (3.0 GPM)

Technical Specifications

Engine Power

4 HP • 5.5 HP • 6.5 HP

Pump Features

Swashplate plunger pump, Copper pump head, Ceramic water plunger, Self-priming, Temperature control valves

Unit Weight

43 KGS

Packing Size

75 x 59 x 48 cm

Accessories

Included Accessories

Component	Description
Water Cannon	HPG01, HPG03, or HPG06 models
High Pressure Pipe	8 metres
Feed Line	3 metres (with filtering option)
Nozzles	Five-nozzle set
