Product Overview

High-Performance Pressure Washer Pump

This horizontal high-pressure washer pump is engineered for durability and longevity, featuring a robust brass head and aluminum housing. It comes pre-filled with 120ml of oil, ensuring immediate readiness for operation without the need for additional maintenance during standard use. Designed for efficiency, it delivers consistent high-pressure output suitable for a wide range of residential cleaning tasks.

Performance Metrics

Performance

2900 PSI
Max Pressure

2.4 GPM
Rated Flow

2.5 GPM
Max Flow

Installation & Compatibility

Mounting Hole Spacing

- Distance to hole: 2 5/8 inch
- Outer holes: 1 7/8 inch and 2 5/8 inch

Shaft Compatibility

3/4 inch Horizontal Shaft

Construction & Maintenance

Safety Features

Thermal Relief Valve • Aluminum Unloader

Materials

Brass Head, Aluminum Housing

Pre-filled Oil Volume

120 ml
