

High Pressure Pump, 16-22 L/min, 10-230 Bar

This high-pressure pump delivers effective cleaning and speed without environmental contamination. Its design promotes mechanization, automation, energy conservation, and water efficiency, leading to reduced cleaning expenses.

Product Overview

High-Performance Industrial Pump

This high-pressure pump is engineered for demanding industrial and commercial applications that require reliable fluid delivery. Featuring a flexible flow rate range and adjustable axle diameters, it offers versatile integration options for existing systems or new equipment builds. Built for durability, this unit provides consistent performance under high-pressure conditions.
