Product Overview

High-Performance 2-in-1 Steaming System

This versatile high-pressure steam iron and garment steamer combination offers a professional-grade solution for wrinkle removal. Featuring a rapid heating device that generates 4 Bar of pressure and steam temperatures up to 130°C, it effectively penetrates fabrics to relax fibers and smooth out even heavy garments like suits and coats. The unit includes a convenient foldable ironing board, making it an ideal all-in-one station for both home and commercial use.
