Overview

High-Pressure Surface Cleaning Washer

This compact and portable high-pressure washer is engineered for efficient outdoor cleaning tasks, including cars, patios, and driveways. It features a durable tri-axial plunger pump and a built-in thermal protector to ensure reliable performance and motor longevity. Designed for convenience, the unit includes an adjustable spray lance, onboard accessory storage, and a total stop system for enhanced user safety.

Technical Specifications

Pump Mechanism	Tri-axial plunger pump
Safety Features	Total Stop System, Built-in Thermal Protector
Power Voltage	120-127V
Frequency	50/60Hz

Design & Usability

Design Highlights

- Compact & Portable Design
- Quick Connection Setup
- Adjustable Spray Lance
- Onboard Accessory Storage
- Integrated Transport Handle
- Wheels for Maneuverability
