

# High-Pressure Triplex Plunger Pump

This high-pressure triplex plunger pump is designed for demanding applications. It features a brass manifold for corrosion resistance and stainless steel plungers for extended seal life.

## ADDITIONAL IMAGES

## Overview

### Industrial Triplex Plunger Pump

This high-pressure triplex plunger pump is engineered for demanding industrial cleaning and fluid transfer applications. Featuring a forged brass manifold and ceramic plungers, it offers exceptional resistance to corrosion and wear. The unit includes a robust die-cast crankcase with an integrated unloader valve to ensure reliable performance and extended service life.

## Construction & Materials

### Crankcase Features

- Die-cast housing
- Color powder coating
- Large cooling surface

<b>Manifold Material</b>	Forged Brass
<b>Plunger Material</b>	Ceramic

## Technical Components

### Integrated Features

- Adjustable unloader pressure
- Stainless steel banjo bolt
- In-line water filter
- Fixed rate detergent injector

<b>Key Components</b>	Hardened crankshaft, Alloy aluminum connecting rod, Ball and roller bearings, German U-packing set
