High-Pressure Triplex Plunger Pump with Ceramic Plungers

This high-pressure triplex plunger pump is designed for demanding applications. It features a robust brass manifold and ceramic plungers for durability, delivering consistent flow and pressure for spraying, cleaning, and fluid transfer.

Product Overview

Professional High-Pressure Triplex Plunger Pump

This high-pressure triplex plunger pump is engineered for demanding industrial tasks including agricultural spraying and irrigation. Featuring robust ceramic plungers for enhanced durability and wear resistance, this unit provides a consistent and reliable flow performance. Its compact design ensures easy integration into various fluid transfer and maintenance systems.

Performance Metrics

Operational Capabilities

30 L/min	3.5 MPa	4 HP
Max Suction Flow	Max Pressure	Required Power

Technical Specifications

RPM Specifications

- Spray mode: 900-1100 RPM
- Irrigation mode: 1400 RPM

Model	3WB-30W
Piston Configuration	3 Pistons x 25mm diameter x 19mm stroke

Physical Dimensions

Carton Size	43 x 32 x 36 cm
Weight	13 kg

Key Features

Product Highlights	Ceramic Plungers, High Pressure, Triplex Design, Adjustable Regulator
