

High-Pressure Triplex Plunger Pump with Solid Shaft

This high-pressure triplex plunger pump is designed for demanding cleaning applications. It features a robust construction with a brass manifold and ceramic plungers for extended durability.

Product Overview

High-Pressure Triplex Plunger Pump

This high-pressure triplex plunger pump is engineered for demanding industrial cleaning applications. It features a robust construction with a durable brass manifold and ceramic plungers, ensuring long-lasting performance under heavy use. Designed with a solid shaft for direct drive connection, it is an ideal component for pressure washers and heavy-duty cleaning equipment.

Technical Specifications

Shaft Configuration	B Male Solid Shaft
Pump Type	Triplex Plunger

Construction

Manifold Material
Brass

Plunger Material
Ceramic

Applications

Primary Applications	Pressure Washers, Industrial Cleaning, Direct Drive Systems
