

High-Pressure Triplex Pump for Spraying and Cleaning

This high-pressure triplex pump is designed for industrial and agricultural applications. It delivers consistent pressure and flow rate for efficient spraying, cleaning, and fluid transfer tasks.

Product Overview

Industrial High-Pressure Performance

The 3WZ-18W triplex pump is engineered for versatility in demanding spraying, cleaning, and irrigation tasks. Its robust design ensures high durability and long-lasting service life, making it a reliable choice for professional environments. Designed with flexibility in mind, it provides consistent pressure and flow rates across various operating conditions.

Technical Specifications

Key Performance Indicators

3 units

Piston Count

3.5 MPa

Max Pressure

3 HP

Required Power

Flow Capacity Table

Application	Suction (L/min)
Spraying	20-25
Irrigation	30-37

Operating Speed

800-1000 RPM (Spraying), 1200-1500 RPM (Irrigation)

Dimensions and Logistics

Dimensions & Weight

- Weight: 1.5 KGS
- Carton Size: 40x30x34cm
- Piston Bore: 22mm
- Stroke Length: 22mm
