

High Pressure Washer

This high-pressure washer is designed for efficient and effective cleaning. It features a durable frame with wheels for easy maneuverability and includes a soap dispenser for enhanced cleaning power.

Product Overview

1. Max Pressure (PSI)	2000
2. Max Flow (GPM)	1.8
3. Engine Model	NP150
4. Engine Type	OHV, Air-cooled, 4-stroke
5. Displacement (cc)	149
6. Starting System	Recoil
7. Engine Oil Capacity (L)	0.65
8. Max Fuel Tank (L)	0.85
9. Max Fuel Tank (G)	0.85
10. Running Time (h)	0.7
11. Spray Gun	Standard Spray
12. Adjustable Pressure	Yes
13. Thermal Relief Valve	Yes
14. Overload Safety	Overload
15. Oil Filter/Change Valve	Yes
16. Frame Type	2-wheel Type

Technical specifications overview for the MINI2000 series.

Mini Series High Pressure Washer

This high-pressure washer is designed for efficient and effective outdoor cleaning tasks. It features a robust engine and a durable 2-wheel frame for easy maneuverability, ensuring reliable performance. Equipped with a soap box for enhanced cleaning power and an EZ-Start pump valve, this unit offers user-friendly operation for various residential or light commercial needs.
