

# High-Pressure Washer

This pressure washer is designed for both professional and home use. It delivers high-pressure water flow for effective cleaning of various surfaces.

## ADDITIONAL IMAGES

## Product Overview

### High-Pressure Washer System

Designed for demanding cleaning requirements, this professional-grade pressure washer features a robust engine and a dual-thrust bearing wobble-plate pump for extended equipment lifespan. The unit is engineered for durability, incorporating double water sealing, a thermal valve, and an all-metal spray gun. Enhanced with a large detergent tank, multifunctional storage panel, and oversized wheels, it provides both versatility and ease of mobility for various industrial and residential tasks.

## Key Features

### Design Highlights

Double thrust bearing pump, Thermal valve protection, All-metal gun, Multifunctional storage, High-capacity detergent tank

## Technical Specifications

### Performance Metrics

**300 Hours**

Lifespan

### Model Comparison Table

Feature	YLQ7710E-200	YLQ7710E-250
Engine Power	5.5 HP	6.5 HP
Pump Material	Aluminum	Brass
Rated Pressure	170 bar	210 bar
Max Pressure	200 bar	250 bar
Rated Flow	8.7 L/min	10.2 L/min
G.W./N.W.	35.33/31.3 kg	36.33/32.3 kg

## Logistics

### Shipping and Packaging

- Carton dimensions: 655 x 539 x 555 mm
- Container load (20'/40'/40'HQ): 140/288/288 units
