

# High-Pressure Water Jetting Machine

This high-pressure water jetting machine is designed for industrial and commercial cleaning applications. It features a robust engine and durable pump for effective removal of dirt and grime from various surfaces.

## ADDITIONAL IMAGES

## Overview

### High-Performance Drain Cleaning Solution

This high-pressure water jetting machine is engineered for efficient cleaning of drain lines ranging from 50mm to 300mm. Powered by a robust 22HP gasoline engine, it delivers a consistent working pressure of 2500psi to tackle stubborn blockages. The unit includes advanced features like pulse technology for navigating tight bends and a foot pedal for enhanced operator safety.

## Performance Metrics

### Key Performance Metrics

**2500 psi**

Working Pressure

**45 lpm**

Flow Rate

**22 HP**

Engine Power

**60 m**

Max Hose Length

## Technical Specifications

Drain Line Compatibility	50mm to 300mm (2 to 12 inches)
Machine Weight	158 kg

## Included Equipment

### Standard Kit Components

- Foot Pedal for safety
- 30° Propulsion Nozzle
- 15° Penetrating Nozzle
- Hose Reel with 9.5mm x 60M Jet Hose
- Cleaning Lance with Brass Turbo Nozzle

## Features

### Key Features

Pulse Technology, Gasoline Powered, Safety Foot Pedal, High-Pressure Cleaning
