

High-Security Mortise Lock Set

This high-security mortise lock set provides robust security for doors. The set includes a mortise lock body, cylinder, strike plate, and three keys.

Product Overview

High-Security Mortise Lock Set

This high-security mortise lock set is engineered to provide robust protection for both residential and commercial entryways. Featuring a hardened steel lock body and a multi-pin cylinder, it is designed specifically to resist forced entry and lock-picking attempts. The set comes complete with all necessary installation hardware, including a reinforced strike plate and three keys, ensuring a comprehensive security solution.
