

High-Security Multi-Panel Steel Door

This high-security steel door features a multi-panel design with a robust frame. It includes a dark wood finish, contrasting dark brown panels, and a peephole.

Product Overview

High-Security Multi-Panel Steel Door

This high-security steel door is engineered for robust protection and aesthetic appeal, featuring a sophisticated multi-panel design. The construction utilizes durable steel materials, finished in a dark wood aesthetic with contrasting dark brown panels to complement professional environments. Equipped with integrated safety features like a central peephole, this door provides both security and functionality for commercial or residential entryways.
